EDUCATION

Collegiate Charter
High School of Los Angeles

High School Diploma
2015 - 2019

PROFILE

Raised in a traditional family in East LA, I am a bilingual (English and Spanish) Full-Stack Web Developer with over three years of experience. I have a strong background in both front-end and back-end development, working extensively with technologies such as the MERN and MEVN stacks, as well as REST APIs. My commitment lies in developing performant and efficient applications for both professional and personal projects.

EXPERIENCE

HolaCode

Web Development Teacher | Remote | October 2022 – December 2022

- Worked with Kanecode, contracted by HolaCode.
- Taught 3-week seminars on full-stack web development to students using Kanecode's platform.
- Focused on teaching JavaScript, HTML, CSS and JQuery and how to use them in conjunction with Kanecode's platform.
- Led students through various projects and exercises online.
- Provided personalized 1-on-1 sessions to help students with homework assignments and answer any questions they had.

PROJECTS

LA Brilliant Cleaning Services – Cleaning Services Company

Front-End Web Development | Remote | May 2024 – Present

- https://brilliant-cleaning-services.web.app
- LA Brilliant Cleaning Services is a family business that provides cleaning services to homes, apartments, offices, and AirBNBs.
- Utilizes Vue.js and Bootstrap to structure and style various pages. It employs Axios to interact with the EmailJS API, enabling customer bookings.

CodeFusion508 – Web Development School

Full-Stack Web Development | Hybrid | Feb 2023 – Jan 2024

- https://github.com/CodeFusion508/
- CodeFusion508 is an educational initiative designed to teach full-stack web development, with a focus on Spanish-speaking students. It comprises a website and associated projects to provide resources and opportunities for learning web development, using Vue.js for frontend development and Node.js for backend among other important technologies.

E-Commerce Website

Full-Stack Web Development | Remote | Oct 2023 – Dec 2023

- https://e-commerce-7sly.onrender.com
- NOTE: It takes a little while to start the service, since I use Render to host my website.
- Built using REACT, Bootstrap, Node.js, JSX, Express.js, and more. This is meant to be a demo of an e-commerce website, available for additional modification to suit your needs.
