PROFILE

I grew up in East LA, fluent in both English and Spanish. I am a Full-Stack Web Developer, I am skilled in both front-end and back-end I have knowledge using MERN, MEVN stacks, REST APIs, and MVC applications. I am dedicated to building applications that are performant and efficient whether it is for work or personal projects.

EXPERIENCE

HolaCode/Kanecode

Full Stack Web Development Instructor | Online | October 2022 – December 2022

- Taught an 8-week seminar on full-stack web development to students at Kanecode.
- Focused on teaching JavaScript, HTML, CSS, and jQuery and how to use them in conjunction with Kanecode's platform.
- Led students through various projects and exercises both online and offline.
- Provided personalized 1-on-1 sessions to help students with homework assignments and answer any questions they had.

Note: This was a temporary position that lasted for 8 weeks

Just4Fun Party Supplies

Cashier and Party Supplies Delivery Helper | East LA | March 2014 – December 2016

- Worked for my family's business.
- As a cashier and delivery helper I processed payments and inventory management.
- Assisted with deliveries of party supplies, carefully handling items and ensuring they were properly set up for customers.
- Developed valuable customer service and organizational skills.
